"MASTER PLAN" YOUR WHOLE YARD.

Even if you don't do the whole job at once, it's wise to make a complete plan for your yard. Decide how much space for gardening, for children's play, for your lounging and entertaining.

HOW TO DECIDE ON FENCE, DECK, OR PATIO.

If your lot lacks privacy, start with a fence—or on a sloping lot, a deck patio, high above the neighbors. Or put in your patio with a short strip of fencing to gain immediate privacy and outdoor living space.
